

Track N Trace Reseller Site Option

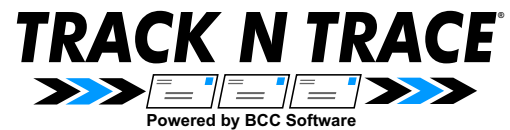

24/7 OneCode Confirm reporting functionality in a secure, worry-free Web-based interface.

BCC's Track N Trace[®] service provides superior mailpiece delivery monitoring, powered by USPS[®] OneCode Confirm[®] technology and the Intelligent Mail[®] barcode. If you process mailings for other clients, all you need now is an interface with which to supply end users with essential Track N Trace reporting data.

That need is fulfilled with the **Track N Trace Reseller Site option** for BCC's Mail Manager 2010, LE and Full Service platforms. Now it's easy to establish a secure, stand-alone Web site—branded with your own company logo and a color scheme of your choice—that makes up-to-the-minute OneCode Confirm results available to your end-user clients.

Used in conjunction with the prepaid Track N Trace service, your Reseller Site offers well-organized, 24/7 end-user access—all with less coordination and fewer hassles than generating and delivering manual OneCode Confirm data updates to your customers.

You're already using the industry's premiere mailpiece-tracking system. Now you can offer your customers the ideal interface for using this service, with the professionalism and efficiency that will set your company apart. Track N Trace Reseller Sites make it all possible. Only from BCC Software.

Reseller Site Option Features and Benefits

- Amplifies functionality of BCC's prepaid Track N Trace OneCode Confirm mailpiece tracking service (sold separately)
- Offers secure end-user access to essential OneCode Confirm delivery data
- Customizable site may be branded with subscriber's company logo, signature colors, and key contact information
- Reseller Site URL link may be added to existing company Web site
- 24/7 site access enables maximum end-user convenience—no manual data transmissions required
- OneCode Confirm scan data is maintained on BCC's secure servers
- Easy customization process provides fast, convenient Reseller Site implementation

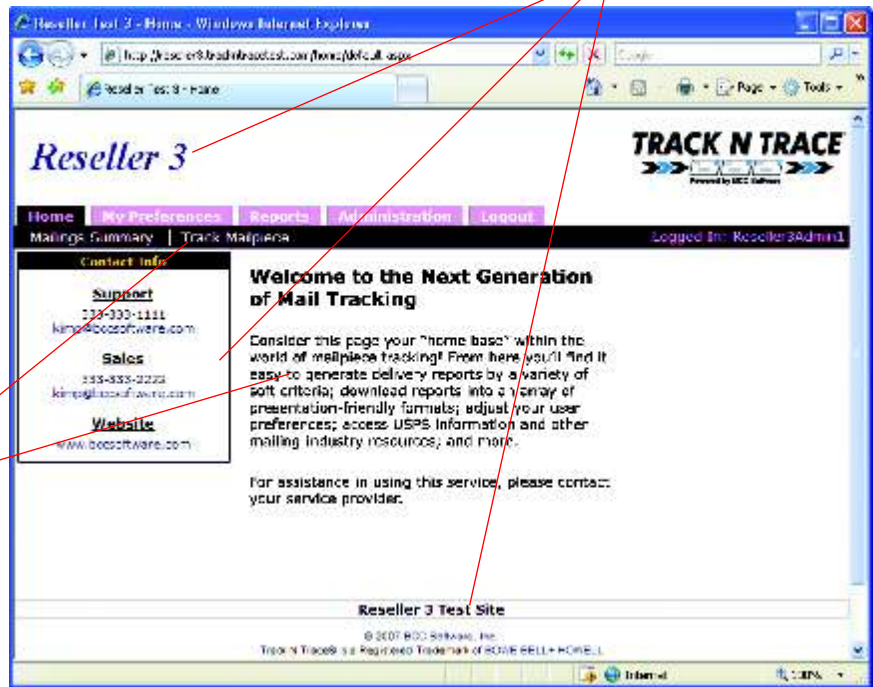

Customize Your Reseller Site to Match Your Business.

With the BCC Track N Trace Reseller Site option it's easy to customize background and text colors, add your company logo, and install key contact information. You'll be providing your customers with the data and responsiveness they demand, and your company with the professional look and feel it deserves.

Choose your text and background colors

Customizable logo and text fields

Track N Trace Reseller Sites: Data that helps your customers, in an interface that helps your business.

Ideal for mailing operations that regularly process jobs for internal or external clients, BCC's Track N Trace Reseller Site option is an unbeatable solution for maintaining multi-user OneCode Confirm reporting data in a convenient, user-friendly format.

Establishing a Reseller Site couldn't be easier: A few simple registration steps are all that's required for BCC technicians to customize a site to your specifications and send you a URL that you can pass on to clients. They'll soon be able to monitor the progress of their Track N Trace-enabled mailings around the clock ... and they'll have you to thank.

Each customer's reports are only viewable by their own designated users, with password-protected account access to ensure full confidentiality. And because the actual OneCode Confirm mail-tracking data is stored on BCC's own secure servers, your clients can enjoy increased data availability while you enjoy the benefits of a truly worry-free interface.

Track N Trace technology puts your business on the fast track to next-generation mail monitoring, and the Track N Trace Reseller Site option is an invaluable efficiency-building customer service complement. Only from BCC Software.

Track N Trace Volume-Based Pricing

The more you purchase, the more you save! Prepaid Track N Trace credits never expire—and your per-credit rates decrease as the volume of your order goes up. Stock up today and keep your Reseller Site in peak condition. For additional details, call **(800) 453-3130**.
