

Mail Manifesting Option

Variable mailings made simple – and affordable.

“The more things change, the more they stay the same”: if only that applied to mailings with pieces of variable weights and thicknesses. Without an easy way to reconcile such jobs with the automated USPS® manifest mailing system, any postal discounts those mailings might deserve will certainly change—and not for the better.

Enter Mail Manifesting from Bell and Howell. These premium options for BCC Mail Manager organize and document your variable mailing jobs, ensuring streamlined production and proper postal discounts.

After BCC Mail Manager presorts your list, these options generate Manifest Keylines on each piece and print a USPS-required Manifest Report. The results: a smoother trip through the postal system for your mailing, and optimal postage savings for you or your clients.

Don't let complex mailings upset your bottom line. Keep it simple with Mail Manifesting for BCC Mail Manager.

Enhance Your Productivity

High productivity is a must in order to meet your deliverables. With BCC Mail Manager Full Service, not only will you increase your efficiency, you'll reduce labor costs.
