

TrayMate 3 Printer

The thermal printer you've been waiting for.

A mailing isn't finished until it's out the door. Ensuring mailpieces will reach their destination on time and on budget requires mailing containers and United States Postal Service® approved tags—and perhaps most importantly, fast, consistent and dependable tag printing.

For printer performance you can count on, trust the TrayMate™ 3 from BCC Software. Designed to the same exacting standards as BCC's presorting software solutions, the commercial-quality TrayMate 3 thermal printer offers the optimal performance, speed and dependability professional mailers demand. The compact unit, ideal for any space-conscious mailroom, provides results that can make a big difference to your bottom line.

Don't settle for less. Choose the TrayMate 3 container-tag printer. Only from BCC Software.
